About Me

I am a responsible student with a strong passion and solid skills in web development. Currently, I am working on my own project, Hidayah, which has enhanced my expertise. I learn quickly and aim to become a senior web developer, contributing to impactful and user-friendly applications. I am committed to delivering high-quality work and growing within a dynamic team.

Projects

Hidayah
Developer & Designer

Hidayah, an Islamic site designed to link and provide access to various other Islamic resources. The goal of Hidayah is to assist Muslims by consolidating helpful information and websites in one place.

PortFolios
Developer

Created a few PortFolios for bunch of persons.
